Instructions for CFI

You can use the following equipment:
- Desktop Computer
- VGA hookup for laptop
- HDMI hookup for laptop

Turn the Monitor On
- Press POWER on the remote.

Select Source
- For the desktop computer, press INPUT on the remote and select HDMI2.
- For a laptop with VGA connection, plug the VGA and audio connectors into the laptop. Press INPUT on the remote and select RGB-PC.
- For a laptop with HDMI connection, plug the HDMI cable into the laptop. Press INPUT on the remote and select HDMI1/DVI.

Troubleshooting
- **If your device is not projecting:** Try selecting a different device and then switch back. Try restarting your device.
- **If your laptop is still not projecting:** Check your cable connections and make sure LAPTOP VGA or HDMI is selected on the push button control unit. For a PC, hold the Windows key and letter P, and choose "duplicate." For a Mac, make sure your display setting is "mirroring."
- **If you cannot hear any sound from HDMI:** you may have to change your audio output on your laptop. For a PC, right-click on the sound icon and choose “Playback devices.” Then choose “LG TV.” For a Mac, Option-Click on the sound icon. Then choose “LG TV” for your Output Device.

Please CALL MEDIA SERVICES (504-864-7120) for any assistance.
Please press Turn System OFF at the end of your meeting!
