Instructions for Enhanced Classroom – Seminar 1

You can use the following equipment:
- Desktop Computer
- VGA hookup for laptop
- HDMI hookup for laptop
- DVD/BLURAY player
- Hook up for other equipment such as VHS player and document camera (Please contact Media Services)

To switch inputs, use the XPanel program, located on the desktop Computer

Turn the Monitor On
- Shake the mouse or press the POWER button to wake the monitor.
- Double click on the XPANEL folder on the desktop, and then click LAUNCH to activate the program.
- Press the ON button on the XPANEL program.

Select Source
- For the desktop computer, press the Internal PC button.
- For a laptop with VGA connection, plug the VGA and audio connectors into the laptop. Press the LAPTOP button.
- For a laptop with HDMI connection, plug the HDMI cable into the laptop. Press the HDMI LAPTOP button.
- For the Blu-ray player, press the BLU-RAY DVD button.

Use DISPLAY IMAGE ON/OFF button if you want to keep the image ready but want the screen to be dark.

Volume is controlled through the XPanel program. If you are using a laptop, please make sure the master volume on the laptop is high.

Troubleshooting
- Video
  • If your device is not projecting: Try selecting a different device and then switch back. Try restarting your device.
  • If your laptop is still not projecting: Check your cable connections and make sure LAPTOP or LAPTOP HDMI is selected on Xpanel Program. For a PC, hold the Windows key and letter P, and choose "duplicate." For a Mac, make sure your display setting is “mirroring.”

- Audio
  • If you cannot hear any sound from HDMI: you may have to change your audio output on your laptop. For a PC, right-click on the sound icon and choose “Playback devices.” Then choose “CRESTRON.” For a Mac, Option-Click on the sound icon. Then choose “CRESTRON” for your Output Device.

Please CALL MEDIA SERVICES (504-864-7120) for any assistance.
Please press Turn System OFF at the end of your class!
