**Instructions for the Living Room**

You can use the following equipment:
- Desktop Computer
- VGA hookup for laptop
- DVD/VHS combo deck with Remote
- HDMI hookup for laptop

1. **Turn the monitor on**
   - Press the **POWER** button on the right hand side of the monitor.

2. **Select source by pressing INPUT on the right hand side of the monitor**
   - For the **desktop computer**, press **INPUT** until **HDMI** is highlighted.
   - For a **laptop with VGA connection**, plug the VGA and audio connectors into the laptop and press **INPUT** until **PC IN** is highlighted.
   - For a **laptop with HDMI connection**, plug the HDMI into the laptop and press **INPUT** until **HDMI 2** is highlighted.
   - For a **DVD/VHS combo deck**, press until **VIDEO 2** is highlighted.

**Troubleshooting**

- **Video**
  - If your device is not projecting:
    - Try restarting your device.
    - Check your cable connections and make sure you have selected the right source on the TV.
    - For a PC, hold the Windows key and letter P, and choose "duplicate." For a Mac, make sure your display setting is “mirroring.”

- **Audio**
  - If you cannot hear any sound from HDMI: you may have to change your audio output on your laptop. For a PC, right-click on the sound icon and choose “Playback devices.” Then choose “Sharp HDMI.” For a Mac, Option-Click on the sound icon. Then choose “Sharp HDMI” for your Output Device.

Please CALL MEDIA SERVICES (504-864-7120) for any assistance.

Please press turn off the monitor at the end of the class.
